CENTRALIZED MAIL & PACKAGE SOLUTIONS

Your Trusted Partner in Centralized Mailbox Design Since 1934

Florence has been the innovator in centralized mail delivery equipment from the beginning. Since our first mailbox patent in 1934, we have developed our product lines to provide the best solutions for mail and package management systems that comply with both USPS and building regulations. Design and construction professionals know they can trust Florence to provide the right solution that complies with the requirements of the project.

Our portfolio of products covers centralized mail and package delivery applications for many different architectural styles; providing both standard pre-configured and custom configurable options in multiple popular powder coat color finishes.

As a long-time strategic supplier to the U.S. Postal Service, Florence has in-depth knowledge of postal regulations and operational requirements...making us your trusted partner! Over the last 15 years, Florence has received six separate supplier awards from the USPS including Quality Supplier, Supplier Excellence and Supplier Innovation.

With a nationwide network of Authorized Florence Dealers, you have local access to our knowledgeable product experts who can help you navigate local codes and accessibility requirements, as well as postal regulations for your new construction or renovation project.

Whether you want to do-it-yourself or prefer to have someone help you every step of the way, Florence has a solution just for you!

4

Cluster Box Units and Accessories

Pedestal-mounted Cluster Box Units are USPS-approved centralized mail delivery equipment for all residential and commercial uses

10

STD-4C Mailboxes and Accessories

Wall-mounted STD-4C mailboxes are USPS approved for all residential and commercial uses

33

Mailbox Accessories

Accessories for mailrooms or other private applications

35

Replacement Mailboxes

STD-4B+ mailboxes are approved by USPS for 1:1 replacement projects or private delivery

Cluster Box Units
## FEATURES & OPTIONS

CBU STANDARD COMPARTMENT SIZES

All CBU models are USPS Approved and pre-configured with standard tenant and parcel locker compartment heights which meet specific USPS regulations.

Note: All OPL parcel locker compartments are 19-5/8" H x 12" W
**Tenant Compartment**
3" H x 12" W

Tenant Compartment
4-3/4" H x 12" W

Double High Tenant Compartment
6-1/2" H x 12" W

Parcel Locker Compartment
9-7/8" H x 12" W

Parcel Locker Compartment
13-3/8" H x 12" W

DOOR ID OPTIONS

Decals: All CBUs come standard with silver adhesive decals which are 1-1/2"H x 1-3/4"W. Black lettering can contain up to five characters (alpha and numeric) per decal.

Engraving: Custom engraving utilizes the USPS Standard US Block font and is 3/4" tall. All engraving can include up to 12 characters on one or two lines.

florencemailboxes.com/CBU

COLOR OPTIONS

All cluster box unit types are available in six different architectural color options; all in a durable, powder coat finish.

Black (BK)

Dark Bronze (DB)

Forest Green (FG)

Sandstone (SD)

White (WH)

Postal Grey* (PG)

*Note: Postal Grey is USPS Approved for replacement only and is not intended for new installations.

PRODUCT DESIGN & SECURITY FEATURES

Sloped top for moisture runoff

Standard silver adhesive identification decals contain up to five characters *(engraving optional)*

Fully integrated parcel locker(s) with key trapping lock

Easy release handle to open master gate

Heavy-duty tenant cam lock with three keys

Rugged, weather-resistant powder coat finish in six architectural colors
Interlocking, overlapping seams and tight clearances to prevent prying

Integrated Outgoing Mail Slot with weather protection hood

Convenient solid aluminum integrated outgoing mail collection compartment prepped for USPS Arrow Lock

Stainless steel hold open door catch on each side of master gate

Aluminum comb prevents mail fishing in outgoing mail collection compartment

Heavy duty cam latches through frame for added security

Matching Aluminum Pedestal
(included)

vital™ Cluster Box Units

Pre-configured units include parcel lockers and outgoing mail collection to be used alone or in large groupings. Pedestal included ensures mailboxes and parcel lockers comply with USPS installation regulations. Available in six architectural colors (see page 6).

USPS Approved and ADA Compliant designs are critical components of a functional mailroom

Online resources provide a design configurator, BIM models and specifications easily accessible for download into your project plans

Secure solutions for mail and package delivery are important to residents

Florence Dealers provide turnkey solutions, integrating USPS Approved STD-4C Mailbox Suites into your next project
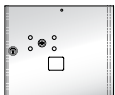

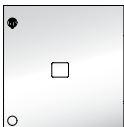

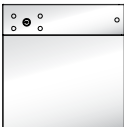

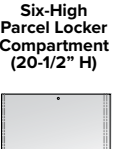

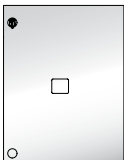

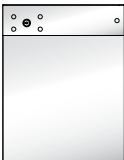

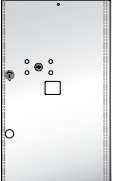

versatile™ 4C Mailboxes & Parcel Lockers

FEATURES & OPTIONS

MAIL, OUTGOING MAIL & PARCEL LOCKER COMPARTMENT SIZES

	Tenant Compartments	Collection Compartments	Parcel Locker Compartments	
One-High (3" H)	MB1	OM1		
Two-High (6-1/2" H)	MB2	OM2		Standard Parcel Locker Compartment (15" H)
Three-High (10" H)	MB3	OM3	PL3 φ	PL15
Four-High (13-1/2" H)	MB4	OM4	PL4 φ	Six-High Parcel Locker Compartment (20-1/2" H)
Five-High (17" H)	MB5	OM5	PL5	PL6

φ For Private Delivery, unless parcel locker ratio exceeds requirement - see below for full details

φ To satisfy the USPS STD-4C 1:5 parcel locker to mailbox ratio requirement, parcel lockers (PL) must meet a minimum compartment height of 15". If the total number of PL in the mailbox installation exceeds the 1:5 requirement, smaller PL may also be included. For example: If a project requires 200 mailboxes, then at least 40 PL with a minimum size of 15"H x 12"W x 15"D must be included. But, if you add more than 40 PL to the 200 mailboxes, then you may also choose to incorporate some smaller PL into the installation. Be sure to note PL height when utilizing only one 4C module type in your entire installation as not all built-in lockers are 15" H and may require addition of parcel only modules to meet the 1:5 requirements (e.g. 4C13D-16).

DOOR ID OPTIONS

Decals: All 4C modules come standard with silver adhesive decals which are 1-1/2"H x 1-3/4"W. Black lettering can contain up to five characters (alpha and numeric) per decal.

Engraving: Custom engraving utilizes the USPS Standard US Block font and is 3/4" tall. All engraving can include up to 12 characters on one or two lines.

florencemailboxes.com/4C

1:5 PARCEL LOCKER TO CUSTOMER COMPARTMENT RATIO REQUIRED BY USPS

COLOR OPTIONS

Customize your 4C module with one of eight different architectural color options, all in a durable, powder coat finish.

Antique Bronze (AB)	Black (BK)	Dark Bronze (DB)	Gold Speck (GS)
Postal Grey (PG)	Sandstone (SD)	Silver Speck (SS)	White (WH)

Integrated Outgoing Mail Slot with weather protection hood

Product and manufacturer ID serial tag

Stainless steel hold open door catch on each side of master gate

Aluminum comb prevents mail fishing in outgoing mail collection compartment

Heavy duty cam latches through frame for added security

Installation Alternatives
OPTIONS FOR STD-4C MOUNTING

RECESSED MOUNT
The most common way to install the 4C modules is into a wall. Florence makes installation easy by providing a Multi-Unit Connector Kit (MUCK) for each specified module. The MUCK eliminates the need for studs and pulls the units together tightly, reducing any potential gaps between modules.

SURFACE MOUNT
Single or double-wide 4C modules can be installed flush on a wall when utilizing the surface-mount collar option. This installation alternative is ideal for settings with limited wall depth.

The collar is easy to assemble with a slotted back which is designed for ease of installation. The collars are all aluminum construction in rugged, weather-resistant powder coat finishes and can be used indoors or out.

SM##D   **SM##S**
(Note: ## = selected suite height, e.g. SM14D)

FREESTANDING CABINET MOUNT
The Depot is a freestanding solution that provides flexibility to install our most popular 4C mailboxes in a standalone cabinet when wall space is limited. Depots are designed to ensure the selected module is installed at a standard accessible height. Ease of installation also makes the freestanding Depot option a popular choice. To order, add -D to 4C model number. (Example: 4C16D-20-D)

Surface-Mount Collars

Designed for indoor use, Florence is pleased to offer a heavy-duty STD-4C mailbox enclosure which allows modules to quickly and easily be mounted to any flat surface. This smooth aluminum collar ensures the mail system achieves that desired sleek, finished look while easily attaching directly to the mailbox module. Ideal for settings with limited wall depth, this USPS-approved solution provides greater flexibility in your mailbox placement and installation.

STANDARD FEATURES

• Available for all 4C modules

• Eight powder coat color finishes

• Order separately SMS##D or SM##S
  (Note ## = selected suite heigh, e.g. SM16D)

SURFACE MOUNT CABINET COLLAR DIMENSIONS

DOUBLE WIDE - SM##D = 32-3/8" W
SINGLE WIDE - SM##S = 18-5/16" W

4C Depot Cabinet
FOR INSTALLATION FLEXIBILITY

The Depot is a freestanding solution that provides flexibility to install our most popular 4C mailboxes in a standalone cabinet when space is limited. Depots are designed to ensure the selected module is installed at a standard accessible height in compliance with USPS installation guidance. Ease of installation also makes the freestanding Depot cabinet a popular choice. To order, add -D to 4C model number. (Example: 4C16D-20-D)

STANDARD FEATURES

- Available to fit our most popular 4C modules - MAX Height, 15H, ADA and 6H
- Weather resistant design makes the Depot suitable for use indoor or out
- All aluminum, corrosion resistant construction
- Sloped top for moisture runoff
- Eight powder coat finishes
- Depot cabinet and 4C ship fully assembled
- Adjustable leveling legs ensure the unit is level even when the floor is not
- Ease of installation means there's no need to remove the 4C from the Depot in order to install

4C DEPOT CABINET SELECTIONS

See 4C Suites on the following pages. Depot cabinets shown below accommodate all modules 6, ADA, 15 and 16 high 4C Suites. To order, simply add "D" to 4C model numbers. For example, a 16-High 20 mailbox module = 4C16D-20-D

OPTIONAL ACCESSORIES

Collection Boxes   See page 18

These secure collection modules complement your mailbox installation and are designed for either postal or private collection of items such as x-rays, DVD/Blue Ray, books, etc.

Recycling Bins   See page 19

Keep the centralized mail center tidy by providing receptacles for the disposal of unwanted mail, or create a recycling center with these matching modules.

Key Keepers   See page 34

Key Keepers are prepared to accept a postal lock installed by local postal officials, providing secure access to important keys.

Directories   See page 35

These surface-mounted directories can be used independently or installed next to any mailbox installation to neatly and alphabetically list the names of your residents. A clear plastic window, metal back plate, and blank ruled name cards are included with each directory.

Mailbox Configurator

Florence offers an industry unique online Revit mailbox configurator you can use to create your own versatile™ 4C installation.

This drag and drop tool will help guide you step-by-step, provide you with BIM and/ or CAD drawings of your creation, and give you the ability to submit it for a quote.

Designing Compliant Mailrooms

For interior mailrooms, the ADA specifies that at least 5% of the total mailboxes must meet accessibility guidelines with installation heights 15" to 48".

Local regulations may override this percentage and require 100% compliance. Typically, it is the local jurisdiction codes office/inspector that will designate if an installation must meet only the minimum ADA requirement of 5% or if it should be 100% compliant.

See page 32 for additional guidelines.

ADA Standards, Section 228.2

4C mailbox suites
ADA compliant heights

Installation and Accessibility References

Designing appropriate accessibility into every feature of a facility is a key consideration for any project, and how the mailboxes are installed into that facility is no exception. Plus, all wall-mounted mailboxes which will be serviced by the U.S. Postal Service (USPS) must also be installed according to specifications as outlined in the USPS STD-4C regulation.

To assist you with selecting mailboxes that meet the specific requirements of your project, details related to installed heights are noted on the Florence versatile™ 4C mailbox modules references on pages 20-31. Below are also the quick references related to accessible uses and USPS requirements to help you in determining your project layout and design.

## MEETING USPS INSTALLATION REQUIREMENTS

Florence Corporation USPS Approved 4C mailbox products are designed to adhere to STD-4C regulations. To ensure your project complies with USPS regulations for wall-mounted mailboxes, your mailbox center must be installed according to the following U.S. Postal Service guidelines:

Installation requirements specified in the U.S. Postal Service STD-4C regulation are outlined below:

1. At least one customer compartment shall be positioned less than 48 inches above the finished floor.

2. No parcel locker compartment (interior bottom shelf) shall be positioned less than 15 inches above the finished floor.

3. No customer lock shall be located more than 67 inches above the finished floor.

4. No customer compartment (interior bottom shelf) shall be positioned less than 28 inches above the finished floor.

5. The USPS Arrow lock shall be located between 36 and 48 inches above the finished floor.
Standards Governing the Design of Wall-Mounted Centralized Mail Receptacles. Federal Register/Vol. 69, No 171/September 3, 2004

Rules and Regulations POSTAL SERVICE, 39 CFR Part 111. www.gpo.gov/fdsys/pkg/FR-2004-09-03/pdf/04-19781.pdf

MEETING ADA INSTALLATION REQUIREMENTS

Accessibility regulations may vary by type of facility and by governing jurisdictions. Therefore, always consult local building officials and codes for applicable accessibility requirements that could affect your mailbox project. Below are industry references for your convenience.

High Forward Reach Limit of 48" AFF (Above Finished Floor)

High and Low Side Reach Limits of 48" AFF and 15" AFF (Above Finished Floor)

2010 ADA Standards for Accessible Design, Department of Justice Code of Federal Regulations, ADA CHAPTER 2: SCOPING REQUIREMENTS, 228.2 Mail Boxes: Where mail boxes are provided in an interior location, at least 5 percent, but no fewer than one, of each type shall comply with 309. In residential facilities, where mail boxes are provided for each residential dwelling unit, mail boxes complying with 309 shall be provided for each residential dwelling unit required to provide mobility features complying with 809.2 through 809.4.

120 Series Collection Box

florencemailboxes.com/collection-box

Indoor letter collection boxes secure mail until pick up by the USPS.

STANDARD FEATURES

- Front-load, Recessed-mounted
- Prepared for USPS installed master lock
- Anodized aluminum powder coat finish
- Engraved "LETTERS"
- Frame Size: 19-1/8"H x 15-1/6" W
- Rough Opening Size: 17-5/8" H x 13-5/8" W x 6 -3/4" D

OPTIONAL FEATURES

- Private master lock available
- Surface-mount collar
- Designated custom engraving
- Letter slot size: 3/4"H x 10"W

120RA

MODEL	DESCRIPTION
120RA	Fully-recessed collection box is a standard aluminum unit with engraved "LETTERS" prepared for USPS lock.
120SPR	Recessed collection box. Private lock. Specify engraving.
120SMSA	Surface-mounted collection box is a standard aluminum unit with engraved "LETTERS" prepared for USPS lock.
120SPSMS	Surface-mounted collection box. Private lock. Specify engraving.

Key Keepers

florencemailboxes.com/keykeepers

Key Keepers are prepared to accept a postal lock installed by local postal officials, providing secure access to important keys.

STANDARD FEATURES

- Recessed- or surface-mounted
- Prepared for USPS installed master lock
- Anodized aluminum
- Extruded aluminum construction
- Exterior dims: 6-3/4" H x 6-1/4" W x 2-3/8" D
- Interior dims: 4-5/8" H x 4-1/16" W x 2" D
- Rough opening: 5-1/8" H x 4-3/8" W x 2-1/4" D

Model KK   **Model KKSM**

MODEL	DESCRIPTION
KK	Recess-mounted key keeper. Prepared for USPS lock.
KKASMA	Surface-mounted key keeper. Prepared for USPS lock.

Directories

These surface-mounted directories can be used independently or installed next to any mailbox installation to neatly and alphabetically list the names of your residents. A clear plastic window, metal back plate, and blank ruled name cards are included with each directory.

STANDARD FEATURES

- Anodized aluminum or powder coat finish (color options below)
- Extruded aluminum construction
- 40 name capacity
- D400-1: 19" H x 8-3/4" W

D400-1A

COLOR OPTIONS

Select either Anodized Aluminum or one of eight different architectural powder coat finishes as noted for all mailbox accessories.

Antique Bronze (AB) PMS 8622C	Black (BK) PMS Black 6C
Dark Bronze (DB) PMS Black 7C	Gold Speck (GS) PMS 7-5C
Postal Grey (PG) PMS 413C	Sandstone (SD) PMS 7501C
Silver Speck (SS) PMS 877C	White (WH) PMS White

Colors shown are representative of the actual powder coat finish but are limited by printing conditions and may vary slightly from finished product.

Horizontal Recess Mounted

Vertical Recessed or Surface Mounted

MAILBOX REPLACEMENT GUIDELINES

You may replace your mailboxes with similar products on a **1:1 basis** if your renovation does not affect your rough opening.

USPS STD-4C compliant mailboxes are required for major renovation projects. Refer to pages 10-33.

ProTip

1:5 PARCEL LOCKER TO CUSTOMER COMPARTMENT RATIO REQUIRED BY USPS

1400 Series
Horizontals (STD 4B+)
FEATURES & OPTIONS

As an indoor solution, these traditional-style mailboxes are most popular in apartment complexes, and university/military housing. The standard for decades, these are available as replacement units for worn out installations. (All new construction must use postal approved STD-4C mailboxes.)

STANDARD FEATURES

- Front-load
- Recess-mounted
- Prepared for USPS installed Master Lock
- Anodized aluminum finish
- 5-pin cylinder tenant cam lock with two keys (1,000 key changes)
- Snap-on outer trim kit (available by request)
- Clear plastic number slots or engraved numbers

USPS APPROVED REPLACEMENT PRODUCT

OPTIONAL FEATURES

- Private master lock
- Configurable door sizes and layout options

Note: Horizontal mailbox installations should be protected from direct exposure to the weather; Florence is not responsible for damage caused by weather conditions as these products are rated for indoor use only.

florencemailboxes.com/horizontal

Plastic Number Slot: Number slots are 5/8"H x 2"W. (Available on tenant compartment doors only.)

Engraving: Custom engraving utilizes the USPS Standard US Block font and is 3/4" tall. All engraving can include up to 5 characters in one line per door.

MAIL, OUTGOING MAIL & PARCEL LOCKER COMPARTMENT SIZES
1400
(5" H x 6-3/8" W)

1403

NOTES:

Standard modules noted with an asterisk (*) are fully configurable; visit florencemailboxes.com/configure to quickly and easily create your custom solution.

See page 36 for compartment size definitions and configurable options.

All model numbers listed are for standard front-load modules; add -SP for custom modules at the end of the number.

1600/1700 Series Horizontals

FOR PRIVATE DELIVERY

A favorite of University housing managers, this indoor solution helps keep your mail area organized. Available in front-loading (1600 series) or rear-loading (1700 series) units, each module provides a lot of compartments in a small space. Since these are private delivery mailboxes, they are not constrained by postal installation regulations and therefore have no minimum or maximum mounting height requirements.

STANDARD FEATURES

- Private master lock
- Recessed mounted
- Anodized aluminum finish
- 5-pin cylinder tenant cam lock with two keys (1,000 key changes)
- Snap-on outer trim kit (available by request)
- Clear plastic number slots or engraved numbers

OPTIONAL FEATURES

- Hinged rear doors with private lock (for 1700)
- Configurable door sizes and layout options

Note: Horizontal mailbox installations should be protected from direct exposure to the weather; Florence is not responsible for damage caused by weather conditions as these products are rated for indoor use only.

florencemailboxes.com/configure

Rear-load mailboxes (1700 series) have an exposed back for easy distribution, so keep in mind during planning that additional space will be necessary for a secure room behind the installation. Access to the room may be restricted and easily accessed using a key keeper (see page 33).

1250 Vertical Mailboxes

PRODUCT FEATURES

Vertical mailboxes have been a staple for mail delivery in small apartment communities for decades. Vertical mailboxes can be used for Postal Delivery only when they replace older vertical mailboxes for one-to-one replacement purposes. Over the years, postal regulations have changed and these mailboxes are no longer approved for new construction. These units are top-loading and should be protected from the weather.

STANDARD FEATURES

- Top-load/front-load
- Recessed- or surface-mounted
- Prepared for USPS installed Master Lock
- Mailbox material: Anodized aluminum
- Surface collar material: Silver powder coated steel
- 5-pin cylinder cam locks with two keys (1,000 key changes)
- Name and number ID card holders

Centralized Mail Delivery Equipment Options

Centralized mail delivery provides delivery and collection services to a number of residences from a centrally located installation – whether in a single-family or multi-family community.

The U.S. Postal Service specifies centralized mail delivery in nearly all new construction, single-family or multi-family, because it is the most efficient method of providing the best service, which helps keep the cost of mail service affordable.

Centralized mail delivery equipment can be in the form of any "clustered" style of mailboxes including free-standing, pedestal mounted Cluster Box Units (CBU), or other Standard 4C (STD-4C) compliant mailboxes mounted in or on a wall.

It is vital that subdivision regulations and other community planning guidelines address the need to review and include common space planning for centralized mail delivery equipment.

Check with local postal officials prior to planning any mailbox installation to ensure local requirements and proper placement is included in the overall design plan.

Find a complete list of USPS Approved manufacturers, a local Post Office®, and the proper postal official nearest you at USPS.com or email Delivery.Growth@USPS.gov.

USPS National Delivery Planning Guide for Builders and Developers

To review USPS planning guidelines that apply to your specific project, download the guide from USPS Growth Management at **www.USPS.com** and click on About USPS/What We are Doing/ Current Initiatives/Growth Management.

Ensuring adequate space and convenient locations for your customer's mail service by planning early for mail delivery in your new development is simply good planning. When you have questions, the Florence team is here to assist every step of the way.

Design and Service Support
ONLINE RESOURCES, DESIGN ASSISTANCE & MORE!

Our toolkits for industry professionals are pre-loaded to ease your project planning. Select from do-it-yourself online tools or contact us for personalized assistance.

Architect Toolkit

Florence has been included in master specs for decades and is pleased to be specified in over 80% of all projects needing Section 10 55 00 postal specialties in the United States. Whether you need continuing education credits, assistance in navigating current postal regulations, product specific CAD drawings or BIM objects, or written specifications; Florence is here when you need us!

Builder/Developer Toolkit

Whether you need something onsite immediately or are planning for your next project, we've gathered basic resources to help you along the way.

Quickly and easily translate a centralized mailbox installation from an architectural spec for bid, source in stock cluster box units, or learn how mandatory postal regulations and centralized mail delivery may affect your project.

USPS Toolkit

This specialized toolkit is designed to provide our USPS customers with quick access to Florence product-related information needed for internal uses as well as for USPS customers that may be requesting advice about their own mailbox installations.

Property Manager Toolkit

Simplified resources to replace or upgrade existing mailboxes, find parts, manage keys or add accessories like a recycling center for resident convenience.
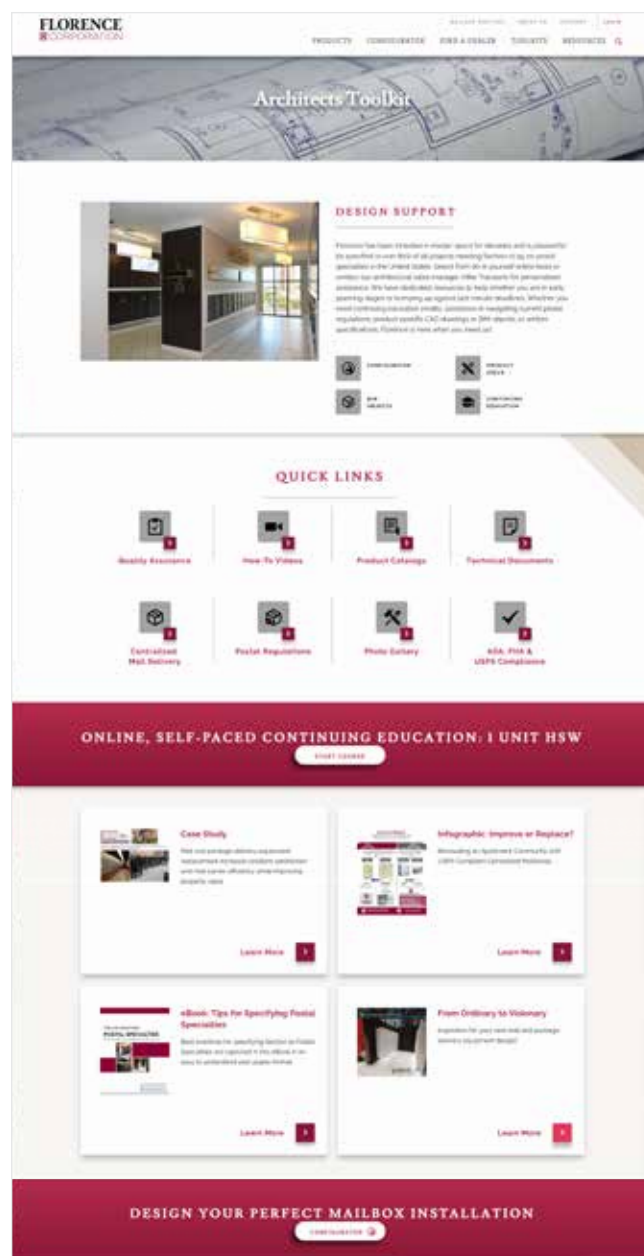

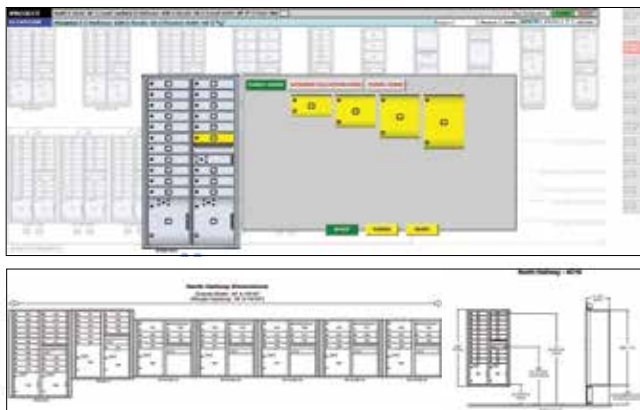

Superior Architectural Resources

florencemailboxes.com/architects-toolkit

Florence Corporation has been included in master specs for decades and is pleased to be specified in over 80% of all projects requiring Section 10 55 00 Postal Specialties. Florence has a long-standing tradition of providing architects with the tools they need to complete the job right the first time.

- If utilizing Revit, our BIM objects can easily be pulled into your projects through the Library without leaving the program; or, they can quickly be downloaded directly from the Florence website.

- A short 'how-to' video is also available to guide you through customizing your Florence BIM mailbox objects so they fit your exact project needs.

- Written specifications are available from the website in both .doc and .rtf format.

Architect Continuing Education

florencemailboxes.com/continuing-education

We offer both in-person lunch-and-learns and online courses so you can choose your preferred method of learning about best practices that will make centralized mailbox and package delivery specification easy. Visit our Architect Toolkit to access our AIA accredited course or to contact us to arrange an in-person learning session with your team.

Florence Product Configurator

florencemailboxes.com/configure

The online Florence Product Configurator helps you design the perfect mailbox layout to meet your project specifications. Whether you are building a new mail center or replacing existing mailboxes, we've provided the options to fit your needs.

Choose your product line, use our drag-and-drop system to design your layout, and then set your numbering schedule.

The Configurator can help select mailbox solutions based on a few simple questions while in Wizard Mode, or allow you to build a completely custom solution that fits your individual project needs while in Power Mode. There is even a Postal Approved Only Mode to ensure you create an approved installation.

Your final creation will be conveniently emailed to you with both CAD and Revit formats for placement in your project and easily quoted by an Authorized Florence Dealer for costing purposes.

Exceptional Customer Service

florencemailboxes.com/customerservice

Florence Corporation is proud to provide a complete support team to serve your needs. Not only are our friendly customer service representatives ready to assist you in locating an Authorized Dealer or answering your product questions, but a full team of engineering, design, manufacturing, quality, marketing, and sales professionals are available to answer your questions too.

Our dedicated team will:
- Ensure your project includes the correct product to solve your centralized mail delivery needs
- Help guide you through current postal regulations
- Assist you in determining the correct product solution for your existing mailbox installation that may need replacing or refurbishing
- Connect you with the right partner who will find you the right product solution

As your partner in mailbox and package solutions since 1934, Florence understands the importance of personalized service.

Authorized Florence Dealer Network

florencemailboxes.com/dealer-network

To ensure your project goes smoothly from conception to construction, our nationwide network of Authorized Florence Dealers is ready to assist you every step of the way:
- Quote information on large jobs
- Help you select the right products for your project
- Provide technical assistance, and even in some cases install everything for you.

Florence Dealers can:
- Assist with replacement and refurbishment of current mailbox installations
- Help navigate local postal requirements to ensure mail delivery is not disrupted for your tenants
- Work with your local resources to ensure proper placement for new malbox installations

By purchasing products directly through factory-authorized distributors, you are guaranteed local, friendly service to help guide you throughout the entire process; providing you with a trusted resource even after the sale.

Replacement Parts

IMPORTANT PRODUCT INFO

Product and Manufacturer Serial Tags

When attempting to determine what replacement parts you may need, begin by simply reviewing the labels attached to the product. Typically the manufacturer contact information can be found on labels either on the front lower right, or back of the product. If no label exists, just take a photograph of the product and email it to us, we'll help you identify exactly what you are looking for!

Product Door Type

Another way to identify the mailbox type for replacement purposes is by the shape of the compartments.

The tall and skinny doors are from the vertical mailbox line (pg 44).

A square door is most likely in the horizontal mailbox lines (pg 36).

The wider rectangular doors are in CBU (pg 6) or 4C (pg 10).

Replacement Parts

Looking to repair your older mailboxes? Chances are Florence can bring new life to the unit with replacement parts such as doors, locks, keys, and various standard parts. When the situation calls for basic repairs rather than replacing the entire unit, simply contact an Authorized Florence Dealer or visit our website for assistance.

(To find an Authorized Dealer near you, visit our online Dealer Locator.)

Replacement Keys

The loss of a mailbox key can be a frustrating experience. For emergency key situations, contact a local locksmith or hardware store. Otherwise, the entire lock mechanism for the mailbox compartment will need to be replaced. Work with your local postal carrier to gain access to the appropriate compartment as needed.

(Make sure to have manufacturer and number from the key handy for reference.)

Good to Know

5 YEAR PRODUCT WARRANTY

Product Warranty

Florence Corporation provides a five-year warranty on its products from the date of shipment when purchased from an Authorized Florence Dealer. Full details on the warranty, as well as how to find a local product expert nearest you, can be found by visiting our website or calling us today!

Social Media

Follow and/or like us on the popular social media platforms so together we can further the discussion on centralized mail delivery, its products, and other topics of interest in the industry. Be sure to also check out our blog where we regularly share pertinent topics of interest as you design and install your mailbox system; and subscribe to our YouTube channel where you can find product feature and 'how-to' videos.

Made in the USA

Located in the American Heartland, Florence Corporation has proudly made centralized mail delivery and storage equipment since 1934. Our approach to manufacturing and quality control allows us to effectively and efficiently produce and ship product from our Manhattan, Kansas, facility. Our long standing American tradition and operation continues to be ISO certified for both our manufacturing and management processes as well as our environmental practices.

Materials

All product descriptions and specifications contained herein were in effect at the time the catalog received final approval for printing. Note that not all powder coat color finishes are available on all Florence product lines; see individual product listings for details. Pantone color numbers shown with finishes are for reference purposes only. Printed colors shown may vary slightly due to printing process. As Florence Corporation continually strives for efficiencies to pass along to our customers, we reserve the right to change specifications and/or designs without notice and without liability. Where appropriate, replacement items will be maintained during potential transition.

Return Policy

All product shipments are adequately packaged, but should be thoroughly inspected upon receipt and prior to acceptance, for potential damage in transit. Returned goods will not be accepted without an RGA (returned goods authorization) number, which must be obtained from the Authorized Florence Dealer with whom you completed the transaction. In the event a product is authorized for a return, a minimum 30% restock fee will apply for standard stock products. Outbound freight and return freight is not credited as part of the return. Custom orders and orders with options cannot be cancelled and will not be accepted for return, exchange, or refund.
Care and Cleaning

The surface of all Florence clear aluminum or powder coated products may be cleaned of dirt or grime with a soft cloth dampened with any mild detergent or properly diluted biodegradable, water-based cleaner, such as "Simple Green™".

Wipe from top to bottom to avoid run-down. Avoid use of abrasives, which might damage the product surface. Rinse with plain water and dry. Avoid cleaning during extreme temperature conditions. Matching touch-up paint products may be available from an Authorized Florence Dealer for products which utilize powder coating.

Your Trusted Partner in Commercial and Residential Centralized Mailbox Designs for Over 85 Years!

Like all great stories, ours started in a garage — with elbow grease and a sweaty brow. It's that kind of story. More than 85 years later, we're still hard at it; continually perfecting our craft, allowing you to perfect yours. You may take our products for granted. We take that as a compliment. Our products don't require attention or fuss. They're built smart, designed to work, and engineered to last.

We empower our customers with the products, the support, and the tools to design faster. Build smarter. Manage better. We understand that in a world of global commerce, demands of efficiency and last minute deadlines, you need a partner that can keep pace. You've met your match with Florence. Established. Dependable. Strong. It's not just what we make...it's what makes us.

FLORENCE CORPORATION

Established. Dependable. Strong.
